

Chris Wood
C/O The Glen Rose Reporter

Dear Chris,

I am writing to thank the good men and women of Glen Rose Texas for their generous support of the Mission 95 Blood Drive on June 16th at The Expo. Our mobile teams collected 84 units of blood. We have since separated those units into red cells, plasma and platelets, so the Mission 95 Blood Drive 2017 placed 252 lifesaving components of blood on the shelves of our area hospitals.

Through this amazing show of support, the Glen Rose community has not only saved countless lives today, but has also brought awareness about the ongoing need for volunteer blood donations. Your community donors continue to inspire others to do the same. June 16th was our third annual Mission 95 Blood drive and to date; the Glen Rose community has donated 301 units of blood at this event. That represents 903 components!

On behalf of the patients and families we serve, our sincere and heartfelt Thank You! It is only through your continued support that we are able to ensure that the blood we are using today will be replaced and available for those of us who need it tomorrow.

All the best,
Judy Smith
